NIKE Soccer Camps

2010

Goucher College

Towson, MD

July 18-22

At **NIKE Soccer Camps**, our goal is to stimulate a love for the game in young athletes by showing them how to accelerate their own progress and success. By partnering with NIKE, our title sponsor, and working with the country's best coaches, we are able to offer an unforgettable growth experience no matter what your age or skill level.

Camp Director

Gary Dunda is in his ninth season as the head men's soccer coach at Goucher College. In 2003, he was selected Men's Soccer Coach of the Year in the Capital Athletic Conference. He initiated his coaching career at Messiah College, his alma mater.

There he was credited

with recruiting and instructing a number of players on the team that captured the NCAA Division III national championship in 2000. Dunda, who is involved with the Maryland Olympic Development Program as a head coach, earned both his National and Advanced National Diplomas from the NSCAA, each with "distinguished pass" commendations.

Our camp directors are among the finest coaches in America. These coaches are our partners. As such, they have a major stake in providing camps of the highest quality: camps that are fun, that improve the skills of the campers, and that provide the campers with the opportunity to make new, lifelong friends. The best place to become a better soccer player is in the company of coaches and players who share your passion.

Camp Details

Beautiful Goucher College is located just eight miles north of central Baltimore. The 287-acre campus boasts six soccer fields, a brand new outdoor track, and a state-of-the-art Sports & Recreation Center.

This high-energy environment includes soccer activities such as morning and afternoon training sessions, small and large group offensive and defensive tactics, and small-sided games. Campers will improve their skills in this high-energy environment. Coaches are dedicated to introducing soccer to young players “the right way” and to helping advanced players take the next step in their development.
